

# REMOTE LEARNING STARTUP SURVEY FOR PARENTS

Possible parent survey questions to collect information before commencing remote learning:

## Technology

- What device(s) does your child have access to at home?
- How many people will be sharing this device?
- Do you have internet connection available on this device?
- Have you discussed cyber safety with your child?
- Do you have access to a printer?
- Do you have any comments relating to your child's access to technology?

## Reading

- Does your child have access to books they are interested in reading at home? How many?
- Do you have any comments or concerns about your child not having access to enough books?

## Writing

- Does your child have access to the following?  
 Pens                       Pencils                       Paper

## Maths

- Does your child have access to the following equipment?  
 Something that could be used as counters (eg. marbles, small tiles, small toys, toothpicks etc)  
 A calculator               An analogue clock               A digital clock               A measuring tape  
 A ruler                       Some string/wool               Some measuring cups (eg. for baking)  
 A pack of playing cards               A dice

## Art

- What craft materials does your child have access to? (eg. textas, glue, scissors, crayons, paints)

## Support

- Approximately, how much time will you (or someone else) be able to allocate to supporting your child's learning each day?
- Will you be working from home during this period?
- What assistance would you like to help you support your child during this time?
